Sprint End Date: 10/22/18
Revision Number: 1
Revision Date: 10/08/18

Sprint 1 Plan

Goal: Implement the basic login for the application & get up to speed with all the new technologies.

User Story 1 - 8 Points

As a user I want, to log into the website so that I can access the website.

- (Task 1) Understand the vue.js environment and project structure. (1hr)
- (Task 2) Create a local hosted website that opens with “HELLO WORLD” (1hr)
- (Task 3) Create a login page (2hr)
- (Task 4) Link the login page to the main page (6hr)

User Story 2

As a Developer I want to learn the technologies that I want to use.

- (Task 5) Learn Vue.js 4Hr
- (Task 6) Learn Node.js 4Hr
- (Task 7) Vue.js developer environment. (HTML/SCSS/JS/Vuex) 1Hr
- (Task 8) Learn about MongoDB and Authentication 3Hr
